# JOIN OUR TEAM

apply to be a poll worker

August 2019

Poll worker recruitment is officially underway for the 2020 election. If you were a poll worker in 2018, check your email for a separate communication from us — the Poll Worker Post. You do **not** need to apply again, but you do need to follow the instructions in that email and let us know your availability.

If you've never been a poll worker, what's holding you back? It's a great way to be engaged with our community.

Applying is quick and easy at [VoteHillsborough.org](http://VoteHillsborough.org).

## What to Expect

Our poll workers spend a total of about four hours completing online training and practicing hands-on scenarios in a classroom setting. Our trainers make it fun and time passes quickly.

Before every election, poll workers who are available will set up the polling locations so that everything is ready to go. Every team has some experienced poll workers, and we provide clear step-by-step instructions and well-organized materials to make it easy.

Working during elections can mean long, gratifying days helping voters participate in our democracy. If you have time, you may consider applying to work during the two weeks of Early Voting and on Election Day. If your schedule is already pretty full, you may decide that working on Election Day is enough of a commitment for you.

## What We Look For

### People who:

- ★ Have a positive attitude
- ★ Are comfortable with simple technology
- ★ Want Hillsborough County to be the best place in America to vote!
